

GOLDEN HARVEST MONTESSORI SCHOOL & AFTERSCHOOL

451 Los Coches St. Milpitas

**Summer
Camp
2023!**
Ages
5 and Up

*Early Bird Special
till
March 31st*

9:00AM to 3:30PM
(Extended Hours
&
Lunches Available)

*Daily Schedule Includes
Mandarin & Hindi Lessons
Strategic Games
Sports & Active Play
Public Speaking
Creative Writing
Arts & Crafts
Music & Dance*

June 5 - 9

Lego Engineering I

*Building robots and
programming
them to perform functions*

June 12 - 16

Kung Fu I

*Learn self-defense skills
& discipline from a
nationally acclaimed Sifu*

June 19- 23

Lego Engineering II

*Building vehicles and
programming
them to perform functions*

June 26 - June 30

Sports Camp

*Crank up with
exercise and games*

July 5 - 7

Young Entrepreneurs

*Building
Business Skills &
Acumen*

July 10 - 14

STEAM

*Syncing STEM
with creative
Arts*

July 17 - 21

Kung Fu II

*Learn self-defense skills
& discipline from a
nationally acclaimed Sifu*

July 24 - 28

Art from Around the World

*Art spotlight on countries
and cultures around the
globe*

July 31 - Aug 4

Goodbye Summer

GOLDEN HARVEST MONTESSORI SCHOOL & AFTERSCHOOL

CALAVARAS CAMPUS

SUMMER CAMP 2023

June 5th to August 4th

Lego Engineering I & II

Lego is an excellent tool that is full of educational opportunities. Children are natural-born engineers, who love to create, design and build. With Lego engineering, they can learn to program unique and fantastic structures that they have built with Lego. We are offering two Lego engineering camps in the month of June that will include Lego building and programming of Robots and Vehicles.

Kung Fu I and II

Children will be engaging in a variety of physical workouts, stretching and body movements that will build their muscle, strong bones, and a healthy heart. Children will learn self-defense skills, discipline, confidence, social skills and teamwork, focus, patience and stillness and goal setting. Nationally acclaimed Sifu Meng's team will be conducting this camp.

Art from Around the World

Students will travel around the world virtually, visiting several continents and learning fantastic facts on the way. Each continent will open up a world of cultures and stories, information about various artists, scientists and explorers from that part of the world and inspire the camp week's projects and art. Our little campers will expand their world view through creative and fun art.

STEAM

Focusing on science, technology, engineering, art, and math, STEAM camp is perfect for campers looking for a challenge and a creative and comprehensive experience that extends beyond their academic year. This camp is geared to unleash the inventor in your child and fosters active, curiosity-driven learning. From STEM to art, this camp covers it all with a truckload of fun.

Young Entrepreneurs

If your child likes "Shark Tank," this camp is for them!
The camp will include product ideation and design, marketing, finance, project management, logo design and slogan making, and selling the product to customers. Students will work through the challenging entrepreneurial project and learn many critical business skills.

Sports Camp

Our Sports camp is the fastest way for your child to learn a new sport or improve skills in one. There will be plenty of exercise and physical play from various sports during this camp. Our large indoor gym allows sufficient space for sports such as basketball, soccer, badminton and table tennis. Improve your game and have a blast doing it.
